---

## ANGULAR FRONT-END DEVELOPER

I am a 21-year-old Angular Developer and Junior Site Manager with experience optimizing WordPress website performance and implementing SEO best practices. Skilled in Angular, JavaScript, and modern web design, I thrive in Agile environments and enjoy solving challenges to enhance user experiences. Motivated to grow, I aim to leverage my expertise to build impactful and efficient web solutions.

---

## EXPERIENCE

### United Growth Holding

Sept 2024 - Present

#### Junior Site Manager

- Assist Senior Developers in enhancing WordPress website functionality and performance, managing content updates to align with SEO best practices. Maintained site efficiency through regular monitoring and updates to ensuring seamless user experience.

### Quantori Academy

Sept 2024 - Dec 2024

#### JavaScript Bootcamp

- For three months, collaborated with a team in an Agile environment, working in sprints to develop a LIMS project using the Angular framework for a stakeholder. Contributed to building a fully functional website with user-specific displays, meeting project requirements and deadlines.

## EDUCATION

### IT Step Academy

Nov 2023 - May 2024

#### Angular Front-End Development

- Key Angular Concepts: Mastered basics of dependency injection, RxJS, reactive forms, standalone components, and directives.

### GeoLab & Academia Europaea Tbilisi Knowledge Hub

Jul 2022 - Aug 2022

#### Front-End Web Development

- HTML, CSS & Figma: Proficient in semantic HTML for accessibility, advanced CSS techniques like Flexbox and Grid for responsive design, and using Figma for creating and prototyping intuitive web layouts.
